read the Bible in one year!

What does the Bible say about eating your vegetables? What does it say about money, stuff and sharing? What does it say about heaven and hell? Most of all, does it really say anything that applies to us today?

We've all heard people tell us what the Bible says, but have you ever read it for yourself? In the year 2012, you have an opportunity to read through the entire Bible using a Bible Reading Plan.

If it sounds intimidating to read the entire Bible, you might prefer to start by reading through the New Testament this year.

If you haven't already, pick up your Bible Reading Plan at church. You'll notice half of the daily readings are suggested to read by yourself, then the other half is to read with your family.

How might our youth group and Sunday School class be different if we all made a commitment to read the Bible more? How would our family be different? How might our lives change if we learned God's word and found new ways to apply it every day?
