a look back at summer 2011

Some would look at the pictures to the left and say, "Wow, you guys were busy this summer!" They'd be right, we had a lot going on. But what I see in these pictures is so much more than just some activities that take up space on our calendar.

In these pictures I see evidence of our 5 "ships" of ministry. I see *discipleship* as we expanded our connection with Christ. I see *worship* as we spent intentional time praising God. I see *membership* as we spent time getting to know one another better in community. I see *stewardship* as we used our time and gifts to help someone other than ourselves. And I see *friendship* as we shared and lived the love of Christ.

Following Christ has never been a one-dimensional task. Being a Christ follower means living in relationship with God and those around us. We had some great opportunities to grow in these relationships this summer and we'll have even more coming up this year. Think about the 5 "ships" and make an effort to grow in each area this year.
